d) For what purpose was the alleged aid given (if known)?

Support is provided in form of a gift for patients to cover the payment of regulatory fees. Regulatory obligation to pay the fees is required by law number 48/1997 Coll. The support which is referred to as a gift may be consumed by patient only in selected health care facilities.

Elsewhere, the regulatory fees have to be paid by the patient.

5. Grounds of complaint.*

Please explain in detail the grounds for your complaint. If known, what rules of community law you think have been infringed by the granting of the alleged aid.

Please be aware: the information provided under this point is regarded as non-confidential.

The Antimonopoly Office stated it was incompetent to appraise the public aid provided to the region.

We request the European Commission to investigate the illegal state aid.

The European Commission is asked to adopt measures that would guarantee protection of free competition on the market as soon as possible.

Regional governments have been intervening in the market; as a result free competition has been seriously limited.

Part of citizens (patients) has been discriminated by this act. Citizens (patients) from distant locations cannot benefit from the services under same conditions as residents living in close proximity. As a result, citizens are not equal before the law. Guarantee of aid distorts patients' access to services, particularly interferes with patients' rights to free choice of health care facility. Guarantee of aid prevents the free movement of services and people.

The same applies to the service provider.

The selected providers are favoured by the guarantee of regional government of payment of regulatory fees while other providers are harmed by this act. Free competition is disrupted by this act.

Measure has been applied by the regional governments selectively – on the basis of criteria that are inconsistent with the equal access to care provided.

List of infringed rules:

Treaty establishing the European Community, the preamble
"Recognising that the removal of existing obstacles calls for concerted action in order to guarantee steady expansion, balanced trade and fair competition"

Treaty establishing the European Community, Article 3 §1.
(g) a system ensuring that competition in the common market is not distorted;

Treaty establishing the European Community, Article 4, paragraph 1.
" ... the adoption of an economic policy which is based on the close coordination of Member States' economic policies, on the internal market and on the definition of common objectives, and conducted in accordance with the principle of an open market economy with free competition."

Treaty establishing the European Community, Article 81 §1.d)
" apply dissimilar conditions to equivalent transactions with other trading parties, thereby placing them at a competitive disadvantage"

Treaty establishing the European Community, Article 87, paragraph 1.
" Save as otherwise provided in this Treaty, any aid granted by a Member State or through State resources in any form whatsoever which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods shall, in so far as it affects trade between Member States, be incompatible with the common market..."

European Social Charter, Article E - Non-discrimination

"The enjoyment of the rights set forth in this Charter shall be secured without discrimination on any ground such as race, colour, sex, language, religion, political or other opinion, national extraction or social origin, health, association with a national minority, birth or other status"

" Save as otherwise provided in this Treaty, any aid granted by a Member State or through State resources in any form whatsoever which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods shall, in so far as it affects trade between Member States, be incompatible with the common market..."

6. Please summarize briefly to what extent the award of the alleged aid affects.*

a) your commercial interests / commercial interests of the person/firm you represent

Public support provided by regions has led to 90% drop in number of patients in the pharmacies where public support is not provided.

b) the market(s) in which the beneficiary(ies) of the alleged aid operate.

Regions of the Czech Republic

7. Information on other procedures.*

a) Have you already approached the Commission's services or any other European or national institution concerning the same issue?

No

b) Approaches already made to national authorities or recourse to national courts or other procedures.

No

There is not competent authority in Czech Republic.

8. I understand that for a faster treatment of the complaint the information provided above in point 3, 4 and 5 are non-confidential and can be sent to the Member State in question.*

Yes

9. Supporting documents

Please list any documents and evidence which is submitted in support of the complaint and add annexes if necessary

- Whenever possible, a copy of the national law or other measure which provides the legal basis for the payment of the alleged aid should be provided
- If the complaint is submitted on behalf of someone else (a person or a firm) please attach proof that you as a representative are authorized to act
- If the complainant is an enterprise, please feel free to attach a brief description of the complainant and its field(s) and place (s) of activity
- Copies of previous correspondence with the European Commission or any other European or national institution concerning the same issue
- If the issue has already been dealt with by a national Court, a copy of a judgement if available.
